

Francis Holland Schools

## **Equalities Statement**

Several members of Council of the Francis Holland Schools Trust have recently received letters, including copies of correspondence sent to the schools' Heads, about the issues raised by the death in the United States of George Floyd and subsequent events and discussions.

The Council is confident that, consistent with the schools' commitment to Christian ethics and values, the schools deal with equalities issues in a systematic, sensitive and understanding way, in their curricular, co-curricular and pastoral activities. We accept that this is an area where we must continue to listen, to broaden our understanding and ensure that developments take place as appropriate, and the issues raised in the correspondence will be reviewed in the Council's committees, particularly the Education Committee, to ensure we are providing an education which is as diverse as possible and fully prepares girls for life beyond FHS.
